Consultancies

Summary : Urban Ecology Consultancy, which main activities are monitoring best practices in this field and awareness raising of various stakeholders (governance, general public, businesses...)

GREENVIBES is a consultancy specialised in Urban Ecology, bringing together various experts (environmental consultants, architectes, urban planners...) towards stakeholders' awareness raising (governance, general public, businesses...).

Our activities include:

- * Consulting and training in Urban Ecology
- * Ecology within your business
- * Strategic watch in Urban Ecology
- * Communication medium (publishing, press articles, designing of brochures and guides...)
 - * Research in Urban Ecology and sustainable development, benefiting from its network of international partners (in particular Greece, UK, Canada, Saudi Arabia, India)
